How to get started, all the information below can be found at https://pcasimracing.com/

Must have: Sim racing setup, wheel, pedals, and an iRacing account. https://www.iracing.com/

Step 1   Sign up for the PCA Simracing League here. https://register-simracing.pca.org/
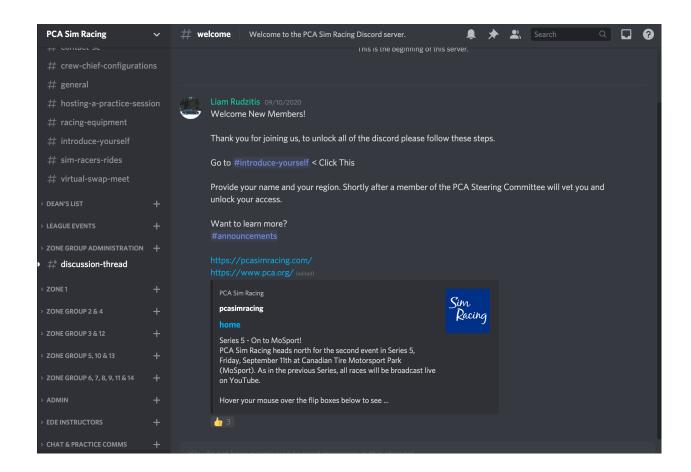

Step 2   Accept the League invitation in iRacing.

Step 3   Sign up for our Discord server here. https://pcasimracing.com/joining-our-discord-server/

Step 4   Introduce yourself in Discord, provide your region and Zone.
          You will then have access to your zone groups information and comms pages.
          There is a lot of information and guidance in our site.

We will get you introduced to your Zone Group rep. They can help with getting you setup with an eDE Instructor to help with everything from computer issues to learning race craft.

Step 5   Join our events, we have 5 Zone Groups running their own series, practices, eDriver Education, and group races. We run on tracks through North America and the rest of the world.
